

Outrageously Dependable®

CYCLE-TRON®

PowerSports Batteries

FACTORY ACTIVATED

Interstate's factory-activated Absorbed Glass Mat (AGM) batteries are fully charged and ready to use! Maintenance-free and completely sealed; allowing for mounting at any angle.

AGM

All the benefits of AGM, but you add the acid when you're ready. Give your customers the freshest batteries possible.

CONVENTIONAL

Conventional dry batteries available with or without an acid pack.

Highest Standards

Our Interstate Cycle-Tron® PowerSports batteries are built to the highest standards with advanced technology.

Built for Toughness and Longer Life

High-impact cover resists breakage. Rigid plastic container and heat-bonded unit resists flexing under extreme vibration.
