● Cold ● Hot

### Long Life Selection Process

Interstate® batteries deliver long life, supported by a nationwide warranty. The MT7 AGM delivers the longest life for high-electric-load vehicles. With the Mega-Tron Plus and Mega-Tron II batteries, more life can be achieved through our climate recommendations, which apply to these sizes: 24, 24F, 27, 35, 65, 75, 78, and 48/H6

- ❄️ Longest life in cold to moderate climates (of Mega-Tron Plus / Mega-Tron II options) due to high CCA and RC
- ☀️ Longest life in hot to moderate climates (of Mega-Tron Plus / Mega-Tron II options) due to high electrolyte-to-lead ratio
- Climate recommendations do not apply to this battery.
