

IMPORTANT FIRST STEPS

BEFORE USING THE ED-18³

1. SET UP UNIT

To enter your shop's information in the ED-18, go to Setup, select Shop and fill in your shop's name, address, number and other information.

2. INSTALL DOCKING STATION

Plug the docking station into an AC outlet in an easily accessible area. You can mount it on a wall or a flat surface. Set your ED-18 into the docking station.

3. WATCH THE DVD

Play the instructional DVD to get the most out of your ED-18³.

DOCK NIGHTLY

When docked correctly, screen will read "Charging Internal Batteries" and the AC charger will have a red or green light. If screen reading or lights are not occurring, check connections.
