

IBT-125 BATTERY TESTER

IT WORKS AS HARD AS YOU

Turn routine maintenance check ups into service and sales opportunities with the reliable IBT-125 Battery Tester.

Easy, fast and to the point, the IBT-125 tester offers a quick battery test, delivering clear results for your customers – all with your repair shop's name printed on top.

FEATURES

- Show customers the results from the integrated printer.
- Evaluate 12-volt batteries from any battery chemistry: standard (flooded), AGM and gel.
- Test the starting and charging electrical systems on cars and light trucks.
- Detect bad cells and discharged batteries down to 1 volt.
- Test any battery from 100 CCA to 1,000 CCA with total reverse polarity protection.
- Use any of the battery rating systems: CCA, SAE, DIN, EN, IEC or JIS.
- Customize the tester with your shop's address, phone number and preferred language.

Outrageously Dependable®
