

ED-18³
BATTERY & ELECTRICAL
SYSTEM ANALYZER

**OPEN ME
FIRST**

Congratulations on acquiring the most advanced handheld battery & electrical system analyzer in the industry.

BEFORE USING THE ED-18³:

Watch the ED-18³ Instructional DVD.

Customize your ED-18³ with your shop information and technician's names from the Setup menu.

[Refer to pages 18–21 in the *ED-18³ Instruction Manual*.]

Install the ED-18³ docking station near an AC outlet and in an easily accessible area. You can mount it to a wall or set it on a counter. Plug it into the outlet.

[Refer to pages 16–17 in the *ED-18³ Instruction Manual*.]

Dock your ED-18³ on the docking station every night. While the ED-18³ is docked, the internal battery pack is recharged and the test results are wirelessly transmitted to a master database.
